Vincent

Born and raised in Hanoi, with a strong love for art, Thuy Bui Howarth has found her own way to express herself through lacquer - a very special and precious material from Vietnam - to create unique paintings. Maybe still considered as a new comer in Europe, in fact, Vietnamese lacquer painting has been in existence for over 80 years. Previously, for thousands of years, lacquer was used for the decoration of objects.

The Universe - 25 x 60 cm

Thuy's paintings are very much influenced by music and nature. You can see the orchestra of life created by a fun-and-stun process of using breathtaking and original techniques and materials. These include eggshell, mother of pearl, silver and gold leaves. These materials are rubbed with sand paper until the colours and textures burst out of the surface, layer by layer.
